Sensation at Breeding.

The people of breeding were greatly surprised Monday morning upon learning that quite a sensation and a great deal of excitement had occurred at the home of Mr. Dock Rube Sunday night before the midnight hour. The particulars as we gather them from people who live in the neighborhood are about as follows:

Mr. Rube, who is said to be a good citizen, was from home in the early part of the night, returning about 10:30 or 11 o'clock. When he reached his home he found Porter Jones in his house and in bed with his wife. He grabbed his gun, but his wife caught him and prevented him from shooting, giving Jones an opportunity to flee from the premises. But before he got out of the yard Mr. Rube fired at him, but he escaped, came on to Columbia and took the 2 o'clock hack. Mr. Rube's wife was a Coomer. We understand that warrants have been issued for Jones and the woman.

Later, the woman in the case came to Columbia Monday and took the 2 o'clock hack this morning. The supposition is that she is gone to meet Jones.

Death of an Aged Lady.

Last Monday morning at 3 o'clock, Mrs. Polly Montgomery, who was the widow of Dr. W. R. Montgomery, died at her late home near Joppa. She was about 85 years old and had been a member of the Christian Church for many years. She leaves two sons and one daughter. The funeral was held at her late home this morning, and the interment was in the Montgomery graveyard. The funeral services were conducted by Eld. F. J. Barger in the presence of a large circle of relatives and friends.

June 24.

Miss Adeline Poindester Berset will give a delightful evening at the Court-house June 24. Let no one fail to hear this talented reader and interpreter of characters.

Her program is made up of short humorous impersonations, Negro-dialects and child stories. The second part of her program is a reading and impersonation of "Miss Selma Lee." This is a splendid story—bright and full of humor. There will be two or three musical numbers by our own local talent. This entertainment will be given under the auspices of the Ladies Aid Society of the Christian church. They believe they have something good for the refined, cultured Columbia people.

Mr. Geo. T. Flowers, Jr., returned from Louisville last Friday morning, having carried his little son to the city to have his eyes examined by a specialist. The doctor informed him that all that was necessary to bring the eyes all right was a pair of glasses. He therefore fitted a pair on the little fellow and in a few months it is hoped that the trouble will be over. While in the city Mr. Flowers met with Mr. J. T. Goodman and accompanied him to Norton Infirmary where Mrs. Goodman is recovering from a very delicate operation. He found the lady cheerful and everything indicating that she will be able to leave the infirmary in about ten days. From Louisville she will go to the home of her parents at Rowena, remaining there several weeks before returning to Columbia.

Dr. J. G. Turk, of Clinton, Mo., writes The News that his wife and grand daughter, Miss Mollie Turk, who visited at Russellville, Ky., had returned in company with Mrs. Turk's brother, Judge J. S. Flowers and daughter, Miss Mattie, who attended the Farmers Congress at St. Louis. They will also make a visit to Texas before returning to Kentucky.

Micajah Muse, who lives in Pulask county, was tried before commissioner F. R. Winfrey, last Wednesday, charged with unlawfully selling liquor, and held over. He gave bond for his appearance before the Federal Court.

Graded School Closes.

On last Friday June 3, the Graded School closed its first year's work. From beginning till the end of the year the school was a remarkable success. The students, soon after school had begun, went to work in earnest. The interest and enthusiasm never ceased till the close. The bell called them together on Friday for the last time till next September, when it is expected school will open again with a much increased enrollment.

The teachers were in preparation of a very appropriate program for the closing, in which all the departments of the school would have been represented, but about three weeks before the close of school, both mumps and measles attacked the attendance. The last eight or ten days many of those who had leading parts in the exercises were attacked, while all the others had been exposed. The teachers then decided not to have any exercises.

The splendid attendance was a part of the school well worthy of mention. There were fewer students present on the first day of school than any time until within eight or ten days before the last, when at this time measles and mumps were in every department.

Some several families have moved into our town to receive the benefits of the school. We invite others to follow the good example. The teachers have worked earnestly and faithfully throughout the year, and deserve much credit for their loyalty to their work.

REPORT

Below is given a report of our school work for the past year. Our attendance would have made a much better showing had it not been for the fact that measles and mumps were in the school during the last month.

Total number enrolled	206
Number not missing over one day	29
Grades highest in per cent of attendance	8 & 9
Grades highest in attendance	2 & 3
Promoted to higher grade	133
Miss Myers room highest attendance—daily average for year	39
Visits by county Superintendents	8
Visits by Trustees	22
Visits by pastors of churches	10
Other visits during year	59
Number cases measles and mumps	33

The names of those who have not missed more than one day after being enrolled are: Chester Scaff, Nellie Tarter, Mary Lucy Lowe, Leonora Lowe, Leon Lewis, Mary Myers, Dexter English, Grace Conover, Susan Miller, Oliver Miller, Tom Patterson, Minnie Ingram, Alma McFarland, Ruth Crawford, Bradley Tarter, Sallie Coffey, Stella Allen, Montgomery, Count Stultz, Anna Eubank, Bradley Tarter, Letitia Paul, Rachel Crawford, Mittie Overstreet, Willard Neat, Neil Hancock, Claud Willis, Ole Willis, Gordon English, Frances Reed, Anna Eubank, Nellie Summa, Pearl Cave, Ruby Stapp, Frances Strange, Louise Frazier, Ely Wolford, Maxie Hall.

It is to be regretted that all could not be promoted. Some quit school before the end of the year, others attended irregularly. It is to be hoped that this year that every pupil will attend regularly and remain in school till the last. It is our aim to have thorough work done in every department.

Respectfully Submitted,
W. M. Wilson, Principal.

I have three cultivators, new, left over, which I will sell at cost.

31 2t C. R. Hutchison.

Prof. W. M. Wilson and his corps of assistant teachers, have done splendid graded school work this year, the school closing last Friday. There is no doubt but the patrons were exceedingly well pleased with the school, its management being a great improvement over district schools. Prof. Wilson is a fine disciplinarian, his quiet order prevailing during the entire term of nine months. His assistants, Mrs. Gibson, Misses Roberts, Myers and Rickman have performed their duties in a manner to meet the approval of all friends of the institution. It is known that Prof. Wilson will be at the head of the school next year, but the Board of Trustees will not be ready for a week or two to announce his assistants, as a little time has been asked.

Circuit court is now in session at Edmontown. The Russell circuit follows.

Death of an Estimable Lady.

The death of Mrs. Maad Dameron, the beloved and kind wife of Mr. Asure Dameron, occurred in this city last Thursday night about 8:30 o'clock. She had been sorely afflicted since last September, and for the last few weeks her husband and friends had no hopes of her recovery. Two months ago she was in the Elizabeth Infirmary in Lebanon, but her affliction did not yield to treatment, and when she was returned home, it was evident that she could live but a short time. During her long illness her faithful husband, and many relatives did everything in their power to restore her to health.

Mrs. Dameron was a daughter of Mr. Sam Robinson, who is in the West, and who never learned correctly she was born and reared in Taylor county. She was thirty years old when the end came, and had resided in Columbia about five years. In early girlhood she confessed her Savior, united with the Christian Church and lived a consistent member until God removed her from the walks of life. Besides her husband she leaves a little daughter, father, three sisters and two brothers, who have the sympathy of the people of this community. The funeral services were held at the Christian church Friday afternoon at 4 o'clock, conducted by her pastor, Eld. Z. T. Williams, a large circle of relatives and friends being present. The interment was in the city cemetery. There were many flowers.

Death of Mrs. Emily Bledsoe.

The subject of this notice was born and reared in Wells' Bottom, Clinton county. She was married to Mr. G. W. Bledsoe about three years ago, died the 28th of May at her late home, near Creelsboro. She was a lady of excellent character and had been a faithful member of the Christian Church since early girlhood. She was a daughter of Mr. Allen Irvine and besides her husband and father, she leaves a young baby and several brothers and sisters. She was the sunshine of the home, loved by all her neighbors, and her passing caused many hearts to bleed. Much sympathy is felt for the surviving husband and the infant child and all other relatives.

Mr. Milton Lester Dead.

One of the most prominent citizens of Russell county—Mr. Milton Lester—died at his late home, Kendall, Ky., last Friday night. He was about 74 years old, a consistent member of the Christian Church, and had been a merchant and out of town for many years. At one time he was school Superintendent of Russell county. He was a man who stood high in the community where he lived, and his passing is a serious blow to the community.

Russell, whose farm is supplied with frog diet, and who will give great pleasure in seeing them grow and thrive.

Miss Stella Conover is now teaching in a Commercial school at Charleston, West Virginia.

Richardson-Allen.

The Burksville Banner reports the following marriage: Wednesday night Mr. Guy Richardson, of Clay's Landing, and Miss Gertrude Allen, the accomplished daughter of J. F. Allen, merchant of Arat, eloped to Celina, Tenn., Wednesday night, May 26, and were married. Mr. Richardson is a fine business gentleman, and Miss Allen is the belle of Ky. It is said that they will take a trip to Kansas and then come back to Columbia, Ky., where Mr. Richardson will go into the merchandise business.

From all parts of the State come tidings of the ravages of the cut worm. The cool weather has been very favorable to their development and in many places the early planted crops have been literally devoured. Potato bugs are also making their appearance in great numbers. The destruction of the birds, which are the natural enemies of insects, has contributed largely to the increase of their ravages.

If there are persons who are contemplating buying a home in Columbia now is the time to act. Property is not going to get any cheaper. So if you want to locate in a town that is steadily increasing in business and population, the healthiest community in the State, come. You will be given a hearty welcome.

New Law Effective.

The change made by the last general assembly of Kentucky in the garnishment law does not seem to have been understood by the public.

The true meaning of the bill is that any man earning from \$1 per month to \$75 per month, ten per cent of his salary can be attached and he may claim 90 per cent as exemption. If a man receives a salary in excess of \$75 per month; only \$65.50 can be claimed by him as being exempt, and all his salary except \$65.50 is liable to attachment.

The exemptions can be claimed in money derived from house rents, dividends on stocks, interest on notes, or mortgages, out of which, under the old law, exemptions might have been claimed.

The new law becomes operative June 15, 1910, and can then be applied only on contracts made on or after the act becomes effective.

The usual personal property exemptions of food, furniture, cooking utensils and live stock remain unchanged.

Tragedies of "Gun Toting."

In Indianapolis a drunken ruffian was ejected from the train. He drew a pistol from his pocket and fired at the conductor and brakeman. A young man who was not a party to the difficulty was shot in the leg and an artery was severed.

In Chicago, a gun toter was running to a fire. The pistol jolted out of his pocket. A school boy picked it up, carried it to school and started out on recess to play "Buffalo Bill." He ordered a playmate to throw up his hands. Pulling the trigger he shot the other lad in the temple, killing him instantly. He didn't know it was loaded.

In Washington not long ago a young man of timid and nervous disposition who kept a pistol under his pillow, shot and killed his wife who happened to go to a window to open it and relieve

the heat of a stifling summer night. A somewhat similar tragedy occurred in Paducah not a great while ago. In Memphis, is one day, three victims of the accidental discharge of revolvers kept "for purposes of self defense were admitted to a hospital badly wounded. One man had knocked his pistol from the top of his dresser, another's "gun" had fallen from his pocket. A third had shot himself while cleaning his weapon of defense.

The list of tragedies and injuries resulting from the habit of carrying pistols and having them about the bureau or under the pillow is endless.

If the "gun toter" only killed what he aims at the universal failure to enforce the law against carrying concealed weapons would be less criminally negligent. If pistols kept for burglars were not more often fired by mistake to members of the family, or by accident by the owner, a pistol might not be a bad thing to have around the house. But as matters stand disarmament, with or without burglar insurance, is likely, in the long run, to prove profitable.

Privilege of Growing Old.

It is precious privilege to grow old. Slowly the realization comes as you learn to subdue the eager, restless spirit that was still selfish a little while ago when the importance of material things was exaggerated. The wonder of it all is that the spirit within you is more and more refreshed, now that you know you are growing old; the miracle is that it is as young as it ever was, and you often smile because so few behold the miracle—because so few understand! It is this deathless youth of the spirit that gives you serene assurance of survival after the semblance of age has been put away. So peace dwells with you.—Ex.

King Edward as a Mason.

The late King Edward was the most prominent living Free Mason. For nearly forty years he was identified with the order, during which time he served as grand master of the grand lodges in England, Ireland, Scotland and Wales, and also grand prior of the order of Knights Templars in England and grand patron of the Ancient Accepted Scottish Rite of Free Masons in the United Kingdom, having received the 33rd and last degrees in that branch of Free Masonry. There was not a member throughout the world who took a deeper or more active interest in the affairs of the Masonic order. Masonry everywhere received his hearty and unqualified support and his presence at a important Masonic functions was always sought for and usually with success.

The best vegetable for feeding hens is cabbage, for it is succulent; and contains the largest amount of ash and protein of all vegetables. Hang them up just so the hens can pick them clean to the stump. The greatest difficulty is in keeping cabbages in good condition throughout the winter. A cool cellar with the cabbage on shelves or hung from the joist has given the best results. The late flat Dutch gives the most feed and requires the least work to raise.

First Magnitude Heroes.

In New York the other day a policeman discovered a bomb to which was attached a short fuse. The fuse was lighted. The fire was pursuing a straight path to the explosive. The lives of 200 or more persons were imperiled. The policeman might have hustled away, but the people in the tenement house could not. Without an instant's hesitancy the "copper" rushed forward, picked up the bomb, powerful enough to have wrecked a building, and doused the fuse in a puddle of water. In the local papers he was given a half column of credit. In the Associated Press reports he was accorded a stick of space. Yet his courage was infinitely greater than that which is required of an Admiral who gives the command for a fleet to advance upon another fleet in battle formation. It is infinitely greater than the courage of a General who directs an army to storm the entrenched position of the enemy and breast the sheeted flame and round shot from masked batteries.

Heroism is just as common a human virtue today as it was when the Three Hundred stood pat in the pass at Thermopylae and the Spartan, Dieneses, observed that the happy circumstance of the sky being darkened by Persian arrows afforded the Spartans a chance to fight in the shade. A good deal of it is distributed among humble policemen and firemen whose hope of reward is hardly great enough to account for their fearlessness.—Frankfort News.

Heroic Act.

William Jackson, of the Alton section of Anderson county, twenty years of age, is in line for a Carnegie medal for bravery. Jackson was passing the house of Logan Carter, when he heard the screams of Mrs. Carter calling assistance, saying that her child had fallen in the well.

Young Jackson leaped the fence and without any questions jumped into the well and by the time the neighbors had arrived, had the boy safe and sound on dry land. The boy, six years old, was attempting to draw a bucket of water from the well, which is operated by a windlass, when he lost his balance and fell in. The well was twenty-five feet deep and contained about six feet of water. Had it not been for the courage of young Jackson, the boy, no doubt would have been drowned before help could have reached him. Had he waited to secure means by which to descend into the well, the boy would also have, perhaps, drowned before he could have been rescued, but Jackson, by quick action, was in the well by the time the child had first come to the top of the water, and placing him upon his shoulder climbed with him to safety, and saved the little fellow's life.

NOTICE

JORDAN PEACOCK

The best breeder in Kentucky, will make the present season at his home in Gradyville, Ky., at \$18.00 to insure a living colt, sound and right.

JORDAN has sired more colts than any horse in southern Kentucky, and his colts are the ones that bring more money than any others; they are the colts that the farmer gets his own price for; they are the colts that the lovers of fine horses from other States come to this country to buy; they are the ones that have put other stallions out of business in this country. JORDAN is the horse that has stood the test and has proven to be the best. He is the only horse in this country that ever sired a colt which sold for \$700.00 at 2 years old. There have been a number of JORDAN's colts that sold for from \$300 to \$700, and a number of them 3 year old and over sold for from \$500 to \$1,000. Has any other horse's colts in this country sold for half of these prices? If they have, some one will please say something about it through the columns of the News, I want to know where they are? Don't let the other fellow make you believe their horse is as good as JORDAN, for you know it is not. Bring your mare to JORDAN and get a colt and a good one.

strings of bright colored bits of cloth and tiny baskets filled with grains of rice. The whole affair is not more than three feet high.

According to the belief of the natives of the islands aforesaid, a god lives in the tree. He is not a particularly good sort of divinity and, if he takes a notion to leave the tree he is liable to do folks a mischief. The best way to persuade him to stay at home in the tree is to make the latter attractive by adorning it in the manner described and by supplying rice in baskets for the god to eat.

The god is a household god and the tree which he inhabits is kept in a corner of the family dwelling.

Messrs. Claud and Roger Pemberton, of Elizabethtown, but formerly of Horse Cave, are preparing to establish a riding school in the near future at Milwaukee in connection with a sanitarium of that city. Quite a number of patients are expecting to begin taking lessons as soon as the new department is in readiness. Both young men are well-known in this county and it is hoped that success will crown their efforts.

Keep the King at Home.

"For the past year we have kept the King of all laxatives—Dr. King's New Life Pills—in our home and they have proved a blessing to our family," writes Paul Mathuka, of Buffalo, N. Y. Easy, but sure remedy for all Stomach, Liver and Kidney troubles. Only 25c at Paul Drug Co.

Fruit Bearing Periods.

Somebody has estimated from statistics that fruit trees and bushes will bear for the following periods:

Apples—Twenty-five to forty years.
Blackberry—Six to fourteen years.
Currant—Twenty years.
Gooseberry—Eight to twelve years.
Pear—Fifty to seventy-five years.
Plum—Twenty to twenty-five years.
Raspberry—Six to fourteen years.

Boys Never Swear

It is vulgar, altogether too low for a decent boy.

It is foolish. "Want of decency is want of sense."

It is cowardly—implying a fear of not being believed or obeyed.

It is contemptible—forgetting the respect of all the wise and good.

It is indecent—offensive to delicacy and extremely unfit for human ears.

It is mean. A boy of high moral standing would almost as soon steal a sheep as swear.

It is abusive—the mind which conceives the oath to the tongue which utters it, and to the person at whom it is aimed.

It is venomous—showing a

boy's heart to be a nest of vipers, and every time he swears one of them sticks out his head.

It is wicked—violating the divine law and provoking the displeasure of Him who will not hold him guiltless who takes his name in vain.

It is ungentlemanly. A gentleman according to Webster, is a genteel man, well bred, and refined. Such a man will no more swear than go into the street to throw mud with a chimney sweep.

A Dreadful Wound.

From a knife, gun, tin can, rusty nail, firework, or of any other nature, demands prompt treatment with Bucklen's Arnica Salve to prevent blood poisoning or gangrene. It's the quickest, surest healer for all such wounds as also for Burns, Boils, Sores, Skin Eruptions, Eczema, Chapped Hands, Corns or Piles. 25c at Paul Drug Co.

June Chickens.

More and more poultry breeders are realizing that the hatching season should be extended all through May and well into June. In fact, many tell us that they can raise better chicks and raise them more economically in June than in April. They may not mature quite so early, but they are easier produced.

If you have not all the chicks you would like, do not become discouraged, but put more eggs to setting at once.

Or if you want some new blood this year and have not bought eggs already, get busy and write to the breeders and order from some of our advertisers.

If you want a nice suit for man or boy, call at Walker's. Nice line and cheap. 30-2t

The Great Comet.

The great Halley's Comet, for the twenty-eighth time in history has made its circuit of the sun and now will gradually pass off on its seventy-five years tour of other heavenly space, where, perhaps other of God's creatures will note its peculiarities as has been done by the scientists of earth. How great all this seems to one accustomed to think of the earth merely as the universe. How it enlarges thought and magnifies, if possible, the works of the Creator. An immense body, evidently of solid nature and supposedly of destructive tendency, is flying through space, weaving in and out among planets and stars, taking nearly a century to run its course, although going so fast it takes the breath away to admit it, writhing and sizzling like a huge cat with teeth and claws always threatening the source of its energy and its millions upon millions of miles of tail lashing the vaulted space and solar bodies in range. Good bye! H. C. Come again!—Farmers Home Journal.

His Discipline.

"Pop," you must take this child in hand, I have about all that I can stand. She has no notion of minding me; it is time you took her across your knee." "Send her to me," said "Pop," with a frown. "It won't take me long to tone her down."

But how could he punish her, tell me, do; when she looked at him with her eyes o'blue? Looked at him in the same glad way

that her mother did in that far-off day when she was his sweet heart and he her beau; how could he strike her, I'd like to know?

But still he took her upon his knee, and at once was lost in a reverie that carried him back to a shady street and a little maid whom he used to meet, a blue-eyed maid whose counter part now sat on his knee with a beating heart, waiting for him to forget those days and punish her for her willful ways.

"Mom" peeped in through the half closed door, they were playing "jacks" on the parlor floor, playing "jacks" and quarreling, too, just as two children are apt to do. She frowned, it was more than half caress—"I will have to punish them both, I guess."

Sure Thing for Harmon.

New York, May 30.—The New York Evening Post to-night published the following:

"That Judson Harmon, Governor of Ohio, would be nominated for President in 1912 by the Democrats, and would be elected, was a prophecy made to-day by Melville E. Ingalls, Chairman of the Big Four Railroad system, and the Democrats most prominently mentioned to succeed Senator Dick, of Ohio, in case that Ohio should go Democratic next Fall.

"The situation in Ohio," he said to-day, "is really very simple. There will be a State Convention next month, but it will be practically unanimous.

"Harmon has made a splendid

Governor, and he has the confidence of the people. He has more friends to-day than when he took office, and even the Republicans are hopelessly disrupted, are still looking for a candidate.

"Harmon will walk into the Governorship. I hardly think that a very great effort will be made to elect the Republican candidate."

"Would that mean that Ohio will be unanimous for him for President in 1912?" was asked.

"Decidedly. And I think that he will be nominated and elected. The country wants a man like Harmon, a man who is calm and safe, and who will our tired nerves rest.

"I know many Republicans—active members of the party for 40 years—who are saying that their party ought to be defeated, just as a lesson.

"They think that it needs a spanking, and when that feeling is rampant there is every ground for the belief that the party is disintegrating."

Free Remedy For Weak Bowels

There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself; the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness.

This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstructions. Do not allow one or two movements of the bowels each twenty-four hours to become a habit. It is a natural process, and does not do this naturally, in the process of civilization, drinking, then you must obtain aid of some kind. After finding out that called drinking, then you must relieve you (or a day, but find you up your bowels the next day, then try Dr. Caldwell's Kidney and Bowel Remedy. It is a simple and more natural remedy than any other.

For the skeptical the best way to begin is to send me your name and address to Dr. Caldwell for a free sample bottle. We will send you one and convince you that a brief continuance of its use will relieve you permanently—that it will again work your bowels at certain intervals, then buy it of your druggist at fifty cents and bottle, and now, fully convinced of its value, buy the one dollar family can. All the members of the family can use it. It is the best medicine ever sold over a druggist's counter.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample bottle, send your name and address on a postal card or otherwise. For the full bottle, send your address to Dr. W. B. Caldwell, R. 500 Caldwell building, Baltimore, Md.

CHAS. S. HARRIS EDITOR.

Democratic newspaper devoted to the interest of the City of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Post-office as second class mail matter.

WED. JUNE 3, 1910.

It occurs to us that several Democratic weeklies in the State are acting with but little judgment in regard to the coming race for the nomination for Governor. They are everlastingly throwing mud at Louisville and its city government, saying many things that they are sure to regret. In our judgment the Democrats of Louisville are just as loyal to party principles as we fellows in the country, and they have just as much right to their choice of a candidate as do we. Furthermore, we can not do without Louisville in a general election. When the party starts out to make a nomination, there is invariably a division. Men have their choice and they stand for their candidates in the primary convention, and go to the State Convention and use their utmost endeavors to land their man, but they are often disappointed and lose out, but true Democrats do not sulk, but upon the other hand, put their shoulders to the wheel and roll for the nominee. It is out of taste to be writing articles, attempting to show why this or that man should not be nominated. All the candidates mentioned for the Democratic nomination are good men, and we will be glad to support whoever is nominated. In fact, we are more for measures, Democratic principles, than we are for men, and we believe that every Democrat should so declare. Therefore, we say quit mudslinging and instead say, Boys, there is a little fight on for the nomination, but after the State convention has been held we will all be together and redeem the old Commonwealth and establish a Democratic government at Frankfort.

Hon. John W. Langley has been renominated by the Republicans for Congress in the Third district. The district is close and a popular Democrat can win in it.

Senator W. O. Brady was the leading speaker at the dedicatory services of the new State Capitol at Frankfort last week. Representatives from all sections of Kentucky were present. Senator Bradley's speech abounded in historical events and was of great interest.

Former United States Senator Jas. B. McCreary has been interviewed and he states that if the Democratic nomination for Governor should be given him that he would accept. He does not propose to make a canvass for the nomination, but if the Democrats of the State believe that he is the man to carry the party to victory, and so say in convention, he would be agreeable to their wishes and make the race. Many papers in the State have mentioned that Mr. McCreary is the proper man for the party to nominate.

The murderer of Alma Kellner is still at large, but a united effort throughout the United States has been inaugurated for his apprehension.

President Taft made a speech at Jackson, Mich., last Saturday in which he stated that Socialism was the greatest issue now confronting the people.

Herschel Campbell was on the sick list a day or so last week.

Well the comet has come, has passed, is gradually disappearing and yet no one has been damaged in the least. Not a single thing that was prophesied concerning it came to pass. It did not make a move that was predicted. Yes, it is true that a number of good people were scared somewhat, but what scared them, I am sure that it was not the comet for it has been as peaceable as a lamb. So I am inclined to think that the only damage done and the only ground for scare was in the big windy tales told by the newspapers. So now kind readers remember the warning: "But of that day and that hour knoweth no man, no, not the angels which are in heaven, neither the Son, but the father. Take ye heed, watch and pray: for ye know not when the time is." Thus be satisfied that the earth will never be destroyed by comets or

anything else until Gods own appointed time and of that time astronomers will know nothing, newspaper wind will bring on tidings and as told in Holy Writ it will come as a thief in the night, wholly unexpected.

History tells us that Halley's comet and 120 others have made occasional visits across our horizon for thousands of years but so far as I have been able to learn no damage of any kind has been done. It is true that several wars have been accredited to them but if you will take the time to read the history of the times I am sure that you will conclude that the comets have had no more to do with such things than they did with bringing on the flood, with sending the Israelites into Egypt, the crucifixion of Christ and with the recent rainy weather. So rest in peace. Comets are entirely harmless.

Some weeks ago I wrote an article suggesting a change in the management of the Fiscal

affairs of this county. I believe that we have as good a fiscal court as there is in the State, but I also believe that no one body of men should be required to perform such a diversity of duties. The law leaves it with the county as to whether or not, the magistrates be required to perform the fiscal duties of the county or whether we have three commissioners to perform said duties.

The rain having ceased, farmers are plowing and hoeing their corn.

It seems to me that if Russell would buy a farm for the poor people to cultivate it would be less expense in the long run.

This is the season when frying chix are living fast.

Arvil Dunbar, Bascom Dunbar and Arndel Sullivan passed here a few days ago on their way to Tel, Ohio, bidding this county farewell. We hope the boys may

have success. It seems that Russell county and other counties have no attraction for the young boys whatever, but the honey pond and glitter tree is situated in Illinois and Indiana. We hope some day the boys will bring their millions back to Kentucky.

We had a severe hail storm recently that did very much damage to garden crops and wheat.

Mr. W. T. Mitchell and his son-in-law passed through here enroute to W. C. Popplewell to place in running order a gasoline mill.

There were few people passed here enroute to decoration services.

Miss Mollie Flanagan was in town a few days ago, shopping.

Novalo Harris while scoring a cross tie, let the ax glance striking his foot, making an ugly gash, severing some of the muscles extending to the toes. Also O. S. Higginbotham on the same day received a wound very much the same way. We do not think

the day unlucky, but they were unlucky on that day.

We are having a few nice days and ever body is making good use of the time.

Not many from here attended the celebration the 30th.

Mr. Orville Holt, of Sewellton, spent Sunday night here.

Mr. M. L. Barlow, a hardware man, spent Sunday night at Mrs. Wooldridge's.

Mr. A. C. Turpin, wife and baby visited at Abner Tarter's one night last week.

Mr. J. R. Carson, of Phil, was here last Monday and Tuesday looking for cattle.

Would be glad to read another letter from Hon. R. E. Lloyd, of Oklahoma. Come again Robert.

A great many farmers in Adair county have set their tobacco plants but their are many acres yet to be put out. An effort will be made for a very large yield in Adair county.

Could not Happen Here.

The lawful wife and widow of England's dead King, and the other woman of his latter years, met beside his bier. The wife, we are told, forgave if she did not forget.

Alexandra of Denmark and England has had much to forgive. Her last forgiving fills many a woman with wonder and many a man with reverence.

We are often told that morals are the same in every civilized country, and that a modern constitutional Monarch is, after all, but a President elected for life.

But there is a difference. There is a gulf between a European Monarchy and the American Republic. This incident illustrates it.

Let us try to imagine such a scene beside the coffin of a McKinley, or a Cleveland, or a Harrison, or a Hays, or a Grant, or a Lincoln, or of any American President on the roll that begins with the name of Washington.

It is not imaginable. It is unthinkable. It is impossible. We all know that. Thank heaven that we do.

This is not said in vainglory, nor to assert that American men are not sinners as are men of other lands, or that we have not, as a people, our share of hypocrisy.

But at least our men in the nation's highest place set no such example as that which produced this meeting beside Edward of England's grave. Nor are their wives compelled by their love for them, to forgive publicly that which no wife can ever forget.

That which happened in England the other day would not—it could not—happen in America. In this respect we may, without hypocrisy, give thanks that we are what we are.—Chicago Inter-Ocean.

One Drunk a Year.

One drunk a year without penalty is the limit prescribed for male New Yorkers in the "habitual inebriates bill" just passed by the Legislature. Persons who get drunk oftener than once a year and are caught at it are liable to be sent to a hospital or farm colony provided for in the bill. And they will have not less than one and not more than three years in which to sober up. The bill, which is a permissive measure, provides that board of estimate of New York City, may establish a board of inebriety to consist of seven members, five to be appointed by the Mayor, two of whom shall be physicians, the other two members to be appointed by the commissioner of corrections. The board is to serve without pay.

June 14th Flag Day.

Frankfort, Ky., May 29th.—Gov. Willson has issued a Flag day proclamation, calling attention to the anniversary of the birth of the flag and suggesting that everybody show allegiance to the flag on that and all days. The proclamation is as follows:

"To the people of Kentucky: The American Flag Association, organized to perpetuate the love of our people for the flag and the earnest, patriotic spirit which that love strengthens, sends its reminder that Tuesday, June 14, 1910, will be one hundred and thirty-third anniversary of the adoption of the stars and stripes as the flag of the United States.

"I call upon all of our people to join in cherishing the love of the flag on June 14. I order that the flag be displayed on all the State buildings and invite the celebration of the day. I call upon the Mayors of our cities to recognize this anniversary and order flags to be displayed upon the municipal buildings of their cities, and by proclamation invite their fellow-citizens to do the same upon their private buildings.

"I appeal to the newspapers to cherish the interest of our people in this anniversary of the birth of the flag by local articles, editorial comment, historical appeals to the people to display the colors on Flag day.

"I call upon all school officers and teachers to arrange patriotic exercises appropriate to the day. I appeal to all patriotic societies throughout the State and to all State officers to stir the public heart by their exercises upon this day, and I call upon all citizens to join in the public recognition of the birthday of our flag, and I call upon all to herald the coming and celebration of Flag day, June 14, 1910, and to fling the Stars and Stripes to the breeze everywhere throughout the entire Commonwealth.

"It will be a beautiful tribute for the pupils in every school to salute the flag and pledge allegiance to the flag and the republic for which it stands, and I call upon every good Kentucky American to always salute the flag whenever it meets his eye, to take off his hat and rest it over his heart. We cannot too often be reminded nor too often remind each other of what that flag stands for."

AUGUSTUS E. WILLSON,
Governor of Kentucky."

He Got The Goods.

At the time of the civil war Potter Palmer was in the dry goods business in Chicago, and Levi Z. Leiter and Marshall Field were working for him. Palmer wasn't so well known, but he had a good reputation in the trade, and he didn't have to introduce himself when he called, on old A. T. Stewart to buy some goods. After some dickering they agreed upon the price, and Palmer calmly said that he would take about \$100,000 worth. It was a little larger bill than Stewart exactly cared to sell young Palmer on credit, but he concluded to make the deal and told him to come in the next morning and arrange some final details. That night some big war news came, and it didn't require any declaration by the government to inform every dry goods man in the country that the price of goods would take a big spurt up. Stewart recognized it as soon as he had the news, and he immediately thought of Palmer. He also thought of the big bill of goods Palmer had bought of him. It didn't particularly tickle Stewart, that thought didn't. But it required only a few scratches of his red head to fix things to his satisfaction. He would simply tell Palmer that he was sorry, but that he didn't feel that he could sell such a big bill on credit, and as he knew that Palmer couldn't raise the cash immediately, why, that would end it, and the sale would be off. Well, Young Palmer called early, and Stewart greeted him in his very abrupt manner, telling him how sorry he was, etc., but really he didn't think it wise business to extend credit for such an amount.

"Just how much does the bill come to?" said young Palmer, seemingly sorrowful-like.

"Just \$110,000," Stewart replied, and then he straightway gulped for breath as young Palmer drew an immense pocket-book from his inside vest pocket and, opening it, counted out 110 thousand dollar bills and, laying them quietly on Stewart's desk, said: "If you will kindly count them and give me a receipt I'll be obliged, as I must take the next train home. Ship the goods soon as you can, and when you're out our way drop in. Always glad to see our friends."

A Woman's Great Idea.

Is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman may be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, level complexion, good health. Try them. 50c at Paul Drug Co.

In some sections the farmers have an excellent opportunity to raise chickens for the early season, for their crops do not need much attention until after that time and the labor can be made to reap great profits from the fowls. Retain the best layers for the mothers and if the hens are not broody, which will probably be the case, use incubators and hatch ducks and chicks in time to reach the late winter and early spring resorts and then hatch out another lot for the spring season. The omet which was dreaded by some people has passed and no one was hurt. We all ought to be thinking of that great day that is coming sooner or later, so when our name is called we can answer, here am I. I wonder how many of us think daily of the blessings we have through life? Dear readers just think of the free water that runs from the earth, and the bread, which is the seat of life, the beautiful flowers with fragrance so sweet, the bright sunshine that cheers every sad heart. Let us all begin at once to live a christian life. We should all speak kind words to everybody for they are more precious than gold.

W. and Beckey Harmon, and leaves a husband, two children, father, mother, three sisters, and a host of relatives and friends to mourn her departure. The dread disease consumption preyed upon her and claimed her. Her sufferings were great, and said many times if it was the Lords will she gladly would leave this world of suffering knowing that she had a home in heaven. Dear bereaved ones the writer knows she lacked no needed attention in her sickness, you did what you could. Now she has gone to rest, would you if you could call her back? Ah, no, because she has paid the debt we all must pay. Are you ready to meet her in that home when God shall call for you? Shall you hear the happy welcome: "Well done thou good and faithful servant enter into the joys of thy Lord," or will you be cast into outer darkness where there shall be weeping and nashing of teeth. Jesus says, "Come unto me all ye that are weary and heavy laden and I will give you rest."
